

## Driver iQ Launches New SafeCarrier Background Screening Solution to Lessen Transportation Industry's Hiring Challenges

August 04, 2020

**Transportation background screening solutions provider Driver iQ announces new SafeCarrier product to alleviate the trucking industry's driver shortage with a fast and cost-effective background check solution.**

Driver iQ, a leading background screening provider for the transportation industry, announces the release of its new SafeCarrier product, developed to alleviate the trucking industry's unique hiring challenges and driver shortage. SafeCarrier is a new background screening service that leverages parent company Cisive's technology and data combined with Driver iQ's industry expertise to offer a solution tailored for the transportation industry.

SafeCarrier is a standard 7 year criminal background check product that is enhanced by combining Driver iQ's deep industry expertise, award winning customer service, advanced technology, Multi-State Criminal Database and nationwide arrest records to provide the most comprehensive, thorough search for the transportation industry. The new background check product offers quick turnaround times and cost savings as a result of Cisive's advanced technology without compromising Driver iQ's quality and accuracy of service.

"We are excited about the release of SafeCarrier, a superior background screening product that will improve the hiring experience for our transportation clients," said Todd Hensley, President of Driver iQ. "SafeCarrier is the result of the combined power of our parent company Cisive's leading technology and data and our deep transportation industry knowledge and experience to develop a brand new criminal background screening product that is also cost-effective. With SafeCarrier, clients don't have to compromise quality or turnaround time for price. Thanks to the improved efficiency of our innovative technology, we are delighted to extend the cost savings to our clients."

SafeCarrier is Driver iQ's new, cost-effective background screening solution developed to ease the transportation industry's hiring challenges, which have only been exacerbated by the coronavirus pandemic.
